

# GODETS DE TERRASSEMENT

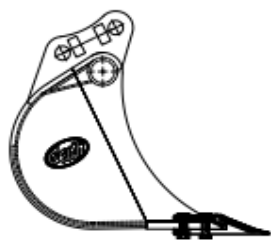

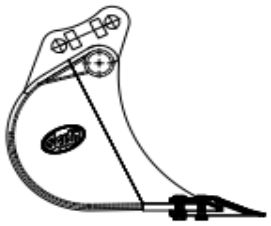

## CARACTÉRISTIQUES ET AVANTAGES :

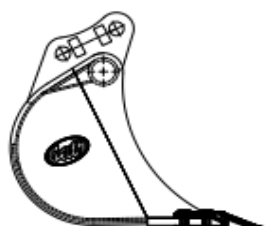

- Équipés des modèles de dents boulonnées ou soudées (Geith 180) les plus courants.
- Flancs latéraux épais pour plus de solidité et une meilleure protection contre l'usure, pour vous aider à tirer le meilleur parti de votre godet.
- Les bandes d'usure couvrent 90 % du fond du godet, pour renforcer la résistance et la solidité.
